

# MAYOR'S REPORT

*June 7, 2023*

BREMERTON  
WASHINGTON

# Lions Park Court 2023 Project Update

- Scope: Resurface and reline courts, expanding pickleball capacity (increase existing pickleball courts from 4 to 10, maintain 4 available tennis courts).
- Funding: \$32,000 donation from the Bremerton Central Lions Club to resurface courts and add pickleball capacity; \$7,500 donation from area pickleball groups and supporters (court resurfacing and pickleball capacity)

## Status:

- June 2023 – Contractor is on site and has begun the court resurfacing and relining project. We anticipate reopening the courts for play this month

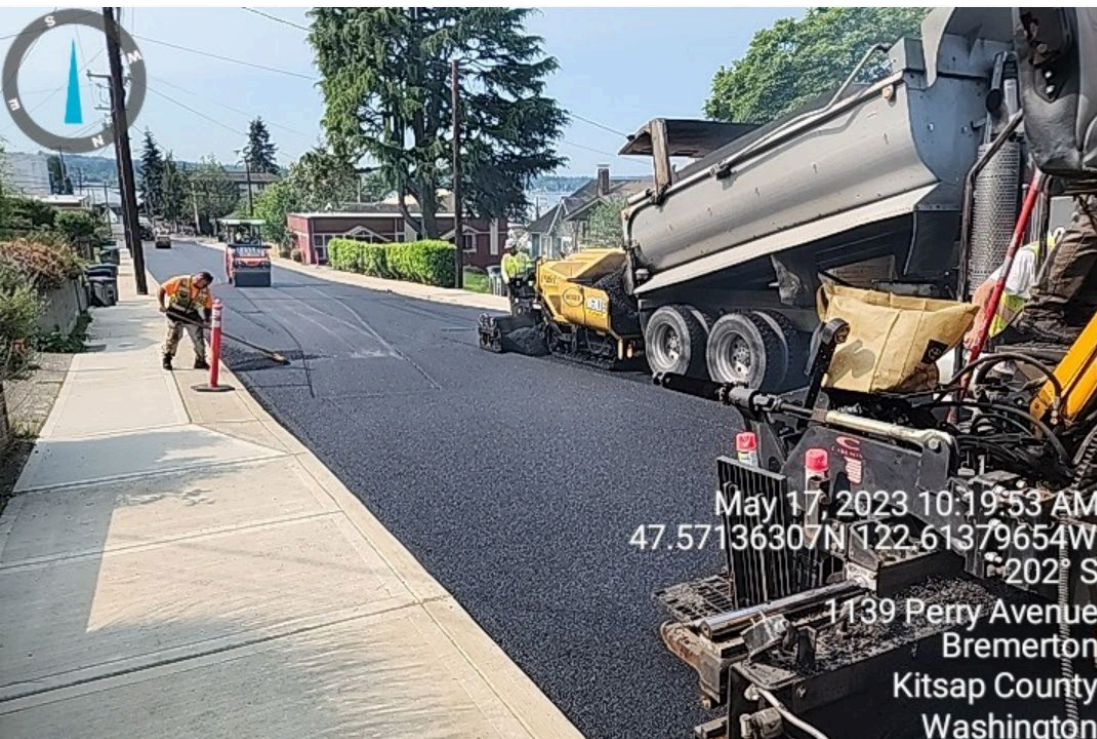

# E 11<sup>th</sup> & Perry Ave Projects

## *Perry Avenue*

- City's contractor finished the majority of the work on Perry Avenue at the end of May
  - This includes the paving, sidewalk, and curb; minor items still left to complete on Perry Avenue include signage and striping

# E 11<sup>th</sup> & Perry Ave Projects

## E 11<sup>th</sup> Street

- City's contractor began working on E 11th Street last week
  - They are currently working on a water main relocation and on the installation of a new storm system
  - Once the underground work is completed (water and storm system), the contractor will move on to the sidewalk, curb, and roadway work

# Washington Avenue and 11th Street Improvements

- Construction anticipated to begin August 2023 and take approximately 8 months
- Improvements include conversion to roundabout to improve traffic operation and safety; improving pedestrian and bicycle safety; widening sidewalks; stormwater improvements, decorative lighting and landscaping, among other improvements.
- Construction will occur in several phases to minimize impacts to the public; City staff will work closely with the contractor to communicate traffic-related impacts
- Nearly \$6 million in funding awarded through state and federal grants for project

Rendering of Proposed Roundabout

# Kitsap Lake Management

Application to the lake completed 6/6/2023

- Removes phosphorus from lake water to control blue-green toxic algae.

**Aquatic Harvesting:** Scheduled between July 10th – August 4th

- Improves recreational use, and safety for users,
- Reduces nutrients in the lake that feed algae blooms.

**Water Quality Monitoring:** City staff will monitor water quality every two weeks through October and monthly through the winter.

**YOU'RE INVITED!**

# West Kitsap Way Planning Study

The City of Bremerton invites the community to an online open house and virtual presentation to learn about draft design concepts for the West Kitsap Way Planning Study.

This study will examine the existing and future conditions of the corridor to determine the design of Kitsap Way between SR 3 and Chico Way NW for all modes of transportation.

## Online Open House
