**RE: Thank You**

Dear Director Spencer,

On behalf of AT&T, I would like to extend our sincere appreciation to the Bremerton Community Development department for your continued collaboration and support. Wireless demand continues to grow every year, and reliable networks are vital to residents, businesses, and First Responders. Your assistance plays a critical role in helping us enhance and expand our network infrastructure to meet these demands.

As part of AT&T's ongoing efforts to improve our network, we are committed to upgrading our facilities to ensure optimal performance, reliability, and efficiency for our customers and communities. These improvements not only strengthen our commercial network but also support the expansion of FirstNet, the Nationwide Public Safety Broadband Network dedicated to First Responders. By working together, we are helping to provide the communications tools that public safety professionals depend on every day.

We truly value the professionalism your staff has shown throughout this process. They are essential to AT&T's ability to deliver the high-quality and reliable communications that we all rely on. We'd like to especially acknowledge Tara Owensby for their dedication to service. Tara provided valuable and thoughtful assistance throughout the permitting process.

Again, thank you to everyone at the City of Bremerton. We look forward to continued collaboration in 2026.

Sincerely,

A handwritten signature in black ink that reads 'Bob Bass'.

Bob Bass  
President Washington, Oregon, Alaska  
External & Legislative Affairs

cc: Mayor Greg Wheeler  
Bremerton City Council  
Tara Owensby, Planner
